

# Installing a Bamboo Floor.

**“This is a big investment, so I had done my research and had a page full of questions. Most of the floor providers I had seen were focused on making a sale, and not prepared nor able to answer all of my questions. Then along came Paul from Better Timber Flooring, representing Style Plantation in the ACT.**

Not only able to answer every question I had, but, he had a longer list of questions for me so I could pick the right floor option to suit my family, our three dogs and cat. Best thing of all, he took me through

all the pros and cons and explained in great detail the steps he would take and possible issues we might encounter given our very old floors, so there were no surprises.

His thoroughness and honesty got Better Timber Flooring the job and they didn't disappoint. Efficient and professional from start to finish, easy to work with and a great eye for detail. Highly recommend Paul and his team.”
